Please find attached a draft East Chicago home water testing final sample result letter and final data template attachment for your review and comment. Once we get approval to move forward we will start getting letters

out. Our staff can start preparing each home's final data attachments while folks are looking over the letter. However, please note that given that we have to manually prepare these attachments and with holiday schedules, these letters will probably go out piecemeal and we won't be completely done until early-mid January or when we get final data. Let me know if you have any questions. If finalizing this letter goes into next week, please note I will be out of the office. Please work with Tom Poy, Andrea Porter, or Val Bosscher in my absence. Thanks!
